

VACUUBRAND®

Our services

„The vacuum pumps serviced by VACUUBRAND are back in optimal condition. By the way, we sometimes still have pumps repaired today that have been in use for over 20 years! Quality pays off.“

*Dr. Vladimir Malakhov,
Ludwig-Maximilians-Universität München*

Repair, maintenance, inspection

Repair

We focus on the reliability and durability of our products. Should something go wrong, we can repair your device quickly and cost-effectively in most cases. Our technical staff will examine your case and contact you to discuss how to proceed.

Maintenance & inspection

Depending on the type and application, our vacuum pumps require occasional maintenance. For this purpose, you can send your products to our factory. Alternatively, our technical staff can visit you on site. Please feel free to make an appointment with us.

Maintenance

Contact service now!

Your benefits

- Vacuum test after each repair or maintenance
- Fair price for repairs - only necessary items are replaced
- Highly qualified technical staff
- Use of original spare parts

Installation and commissioning

Our technical staff will also visit you on site and take care of installation and commissioning, followed by a functional test. This way, you can always be sure that your product is working properly and being used correctly. Our Service also includes instructions for your employees to ensure no question remain unanswered on using the equipment.

Installation and commissioning

Articleno. 20900246

Your benefits

- Professional installation, commissioning, maintenance
- Test run with testing and documentation
- Briefing of your employees
